

The diagram illustrates the user interface of a hotel management system, showing various screens and their interconnections:

- 登入界面 (Login interface):** Contains fields for Username and Password, and buttons for Log in, Sign up, and Log in (for hotel).
- 註冊界面 (Sing up interface):** Contains fields for Username, Password, and Confirm Password, and a Sign up button.
- 用戶界面 (User interface):** Displays a table of orders (MyOrder) with columns: ID, Hotel, Room Type, Price, Start, End, and Status.
- 酒店界面 (Hotel interface):** Displays a table of hotels with columns: ID, Hotel, Room Type, Price, Start, End, and Status.
- 更改密碼 (Change password):** A dialog box with fields for Old Password, New Password, and Confirm Password, and OK/Cancel buttons.
- 客戶界面 (Client interface):** Shows a form for client information with fields for Name, Address, and Phone, and buttons for user, log out, hotels, and price.
- 房間資料 (Room information):** Shows a form for room details with fields for Price, Introduction, and a book button.
- 下訂單界面 (Check in interface):** Shows a calendar for August 2018 and a table of available rooms.
- Grand Lisboa:** Shows a form for room details with fields for Price, Numbers of Room, and Numbers of order, and a book button.
- 訂單資料 (Order information):** Shows a table of orders with columns: ID, Total, Start, End, and Status.

Arrows indicate the flow between these screens, showing the sequence of operations for users, including login, registration, password change, and room booking.
